

Name	DC	Theme	Project
------	----	-------	---------

1 Mission <i>What must your system do, and for whom? One sentence.</i>	Where it will operate <i>Country, protected area, habitat; people or settlements nearby?</i>
--	--

2 Capability audit

List the capabilities your system needs, then ask of each: do we need it, and how could it be misused?

Capability <i>e.g. thermal detection, autonomous landing, eDNA sampling, open-source release</i>	Need <i>Essential · Useful · Incidental</i>	Who or what is affected <i>People, animals, habitats, data subjects, communities</i>	Misuse or dual-use scenario <i>How could someone else use this capability?</i>	Value at stake <i>e.g. privacy, animal welfare, safety, fairness, autonomy</i>	Caution option <i>Limit · Remove · Geofence · Anonymise · Restrict release · None</i>

3 Red team <i>Misuses your theme group found, and what you would change in response.</i>	4 Stakeholders <i>Direct, indirect and non-human: who is affected, who decides, who benefits?</i>	5 My institution's ethics process Approval needed? ☐ Yes ☐ No ☐ Don't know Triggers: ☐ Animals ☐ Human participants or personal data ☐ Fieldwork outside the EU ☐ Export-controlled items ☐ eDNA or genetic resources ☐ Other: _____ Committee or contact: Status: ☐ Not started ☐ Submitted ☐ Approved ☐ Reviewing existing Next step, and by when:	6 A question for T7 <i>One question you want to take to part 2, at M18.</i>
